

CHECKLIST OF ILLINOIS ENDANGERED AND THREATENED ANIMALS AND PLANTS

Illinois Endangered Species Protection Board

Effective May 19, 2015

The Illinois Endangered Species Protection Board (Board) reviews and revises the Illinois List of Endangered and Threatened Species (Illinois List) as warranted and no less often than every five years. The Board completed its most recent review in 2014 and the following checklist includes all species designated as endangered or threatened by the Board from that review. Species are listed by taxonomic group and alphabetically by scientific name.

The Illinois List is officially promulgated via two Illinois Administrative Rules: the Illinois List of Endangered and Threatened Fauna (Title 17 ILL. ADM. CODE, CH. I, SEC 1010) and the Illinois List of Endangered and Threatened Flora (Title 17 ILL. ADM. CODE, CH. I, SEC 1050). For links to these and other administrative rules, the Illinois Endangered Species Protection Act, and information about the Illinois List review and revision process, please visit the Board's website at <http://www.dnr.state.il.us/espb/index.htm>.

NOTE REGARDING FEDERALLY DESIGNATED ENDANGERED OR THREATENED SPECIES

All federally designated endangered or threatened species and subspecies have been automatically listed as endangered or threatened under the Illinois Endangered Species Protection Act and placed on the Illinois List by the Board and are protected under the Act even though their names do not appear in this checklist. Only those federally designated endangered or threatened species and subspecies known to occur in Illinois are designated as Illinois-endangered or Illinois-threatened by the Board and their names appear in this checklist (** = federally endangered; * = federally threatened). Users should refer to the US Fish and Wildlife Service website at <http://www.fws.gov/endangered/> for a complete listing of all federally designated endangered and threatened species and subspecies.

CRITERIA FOR STATE LISTING

1) Species or subspecies designated as federally endangered or threatened, 2) Species proposed for Federal Endangered or Threatened status that occur in Illinois, 3) Species that formerly were widespread in Illinois but have been nearly extirpated from the State due to habitat destruction, collecting, or other pressures resulting from the development of Illinois, 4) Species that exhibit very restricted geographic ranges of which Illinois is a part, 5) Species that exhibit restricted habitats or low populations in Illinois, or 6) Species that are significant disjuncts in Illinois i.e., the Illinois population is far removed from the rest of the species' range.

DEFINITIONS:

"Endangered Species" means any species of plant or animal classified as endangered under the Federal Endangered Species Act of 1973, P.L. 93-205, and amendments thereto, plus such other species which the Board may list as in danger of extinction in the wild in Illinois due to one or more causes including but not limited to, the destruction, diminution or disturbance of habitat, overexploitation, predation, pollution, disease, or other natural or manmade factors affecting its prospects of survival.

"Threatened Species" means any species of plant or animal classified as threatened under the Federal Endangered Species Act of 1973, P.L. 93-205, and amendments thereto, plus such other species which the Board may list as likely to become endangered in the wild in Illinois within the foreseeable future.
