ENVIRONMENTAL REVIEWS COMPLETED

Project reviews completed from June 15 to July 15 are listed below. These projects have been screened through the internal environmental review process for potential impacts on wetlands, threatened and endangered species, and cultural and archaeological resources, etc. Through the review process it was determined that environmental impacts have been kept to a minimum and mitigated as necessary, that they do not meet the criteria for significant actions as defined in the environmental review process, and may proceed. All of these projects are in compliance with the Endangered Species Protection Act, Natural Areas Preservation Act, Interagency Wetlands Policy Act and cultural resource statutes.

- **Rockton Bog Nature Preserve**

0813167 - This project involves the removal of contaminated top-soil that resulted from a nitrogen spill of approximately 1100 gallons. The contaminated soil will be removed from the site and no back fill will be brought on site. The excavated area will be allowed to naturally re-hydrate following soil excavation. Project was submitted for review on 6-24-08.

- **Giant City State Park**

0812924 - This project involves the repair to a short section of the Red Cedar Hiking Trail south of the equestrian campground. Project was submitted for review on 6-16-08.

Questions and Comments

All questions and comments about the environmental review process or this newsletter should be directed to:

Illinois Department of Natural Resources
