Reg. 386, effective January 1, 1985; amended at 14 Ill. Reg. 1484, effective January 3, 1990; recodified from 92 Ill. Adm. Code 730, Department of Transportation, to Department of Natural Resources, at 22 Ill. Reg. 7362.

SUBPART A: GENERAL RULES

Section 3730.101 Scope

This Part governs the practices and procedures of the Director and his delegated representatives, and all allocation and enforcement proceedings conducted by them pursuant to the Level of Lake Michigan Act [615 ILCS 50].

Section 3730.102 Definitions

As used in this Part except where the context indicates otherwise, the following terms shall have the meanings specified:

"Act" means the Level of Lake Michigan Act [615 ILCS 50].

"Annual accounting period" shall be October 1 of each calendar year through the last day in September in the succeeding calendar year;

"Department" means the Illinois Department of Natural Resources;

"Director" means the Director of the Illinois Department of Natural Resources or his duly delegated representatives;

"Emergency allocation" means a temporary allocation of Lake Michigan water in accordance with Section 3730.305;

"Emergency and standby use" means water pumped to maintain an adequate water supply in the event of a partial or total failure of the primary water supply source of a permittee;

"Gross annual pumpage" means the total amount of water delivered to a user's system;

"Hearing Officer" means a person duly designated as the hearing officer by the Director;

"Hydrant uses" means, but is not limited to, all water obtained from hydrants for uses such as fire fighting and training, water main flushing, sewer flushing, street cleaning, and unmetered public and private construction;

"Net annual pumpage" means the total amount of water delivered to a user's system not including wholesale water delivered to other water systems;

"New users" refers to any regional organization, municipality, political subdivision, agency, instrumentality, organization, association, or individual that did not have an allocation of Lake Michigan water from the Department on July 1, 1980;

"Party" means an entity:

which has made application to the Department for an allocation of the Lake Michigan diversion pursuant to the Act, or

which has been made a party by the Hearing Officer pursuant to Section 3730.203(c);

"Permittee" means any regional organization, municipality, political subdivision, agency, instrumentality, organization, association, or individual that has an allocation permit for water from the Lake Michigan diversion;

"Unaccounted-for flow" means that amount of water supplied to a system (including the components of transmission, distribution, storage, and pumping) which is lost from the system prior to delivery to the end user, but not including unavoidable leakage. "Unaccounted-for flow" shall include water not accounted for due to underregistration of meters and water lost due to main breaks. "Unaccounted-for flow" shall be calculated by taking the net annual pumpage of the system and subtracting from that figure the amount of water used for residential, commercial, industrial, municipal, hydrant, other identified uses, and unavoidable leakage. The remainder shall be the "unaccounted-for flow." In determining the amount of water used for uses that are unmetered, estimates shall be based on acceptable engineering practices at the time of each unmetered use;

"Unavoidable leakage" means that amount of water lost from a well maintained water system. In determining "unavoidable leakage," consideration shall be given to the age, size and type of pipe and joints, ground conditions surrounding the pipes, the number of service connections, the number of valves and hydrants, and system pressures. The maximum allowable "unavoidable leakage" shall be determined as follows:

For cast iron pipe with lead joints

Age of system	Maximum unavoidable leakage
greater than 60 years	3000 gal/day/mile of main
40 to 60 years	2500 gal/day/mile of main
20 to 40 years	2000 gal/day/mile of main
less than 20 years	1500 gal/day/mile of main

For all other types of pipe and joints

Age of system	Maximum unavoidable leakage
greater than 60 years	2500 gal/day/mile of main
40 to 60 years	2000 gal/day/mile of main
20 to 40 years	1500 gal/day/mile of main
less than 20 years	1000 gal/day/mile of main

- d) All depositions and interrogatories taken pursuant to this rule shall be for purposes of discovery only, except as herein provided. Such depositions and interrogatories may be used for purposes of impeachment and as admissions of the deposed or interrogated party. Upon application to the Hearing Officer either before or after the taking of such deposition or interrogatories and upon showing

that at the time of the hearing, the party deposed or interrogated will not be available to participate in the hearing because of death, age, sickness, infirmity, absence from the Northeastern Illinois Metropolitan Region (specifically the counties of Cook, DuPage, Kane, Lake, McHenry and Will), or other exceptional circumstances, the Hearing Officer may order that the deposition or interrogatories be used as evidence in the hearing.

The deposition shall then be signed by the deponent unless the deponent is ill or cannot be found or refuses to sign, in which event the court reporter's certification shall state the reason for the omission of the signature.

Section 3730.209 Admissions

- b) Request for Admission of Genuineness of Document. A party or the Department on its own motion, may serve on any other party a written request for admission of the genuineness of any relevant documents described in the request. Copies of the documents shall be served with the request unless copies have already been furnished.
- c) Admission in the Absence of Denial.
 - 1) Each of the matters of fact and the genuineness of each document of which admission is requested is admitted unless, within 20 days after service thereof, the party to whom the request is directed serves upon the party requesting the admission either:

- A) a sworn statement denying specifically the matters of which admission is requested or setting forth in detail the reasons why he cannot truthfully admit or deny those matters; or
 - B) written objections on the ground that some or all of the requested admissions are privileged or irrelevant or that the request is otherwise improper in whole or in part.
- 2) If written objections to a part of the request are made, the remainder of the request shall be answered within the period designated in the request. A denial shall fairly meet the substance of the requested admission. If good faith requires that a party deny only a part, or requires qualification of a matter of which an admission is requested, he shall specify so much of it as is true and deny only the remainder. Any objections to a request or to an answer shall be heard by the Hearing Officer upon prompt notice and motion of the party making the request.
- d) Effect of Admission. Any admission by a party pursuant to a request under this rule is for the purpose of the pending action only. It does not constitute an admission by him for any other purpose and may not be used against him in any other proceeding.

Section 3730.210 Authority of Hearing Officer

The Hearing Officer shall have the duty to conduct a fair and impartial hearing, to take all necessary action to avoid delay, to maintain order, and to ensure development of a clear and complete record. He shall have all powers necessary to these ends including (but not limited to) the power to:

- a) General Provisions
 - 1) All hearings shall be open to the public.
 - 2) All testimony taken at such hearings shall be under oath or affirmation.
 - 3) All relevant evidence is admissible if, in the opinion of the Hearing Officer, it is of a type commonly relied upon by reasonably prudent men in the conduct of their affairs. Objections to evidentiary offers may be made and shall be noted in the record.
 - 4) In determining the admissibility of evidence, the Hearing Officer shall give consideration to, but not be bound by rules of evidence governing civil proceedings.
 - 5) Official notice may be taken of all facts of which judicial notice may be taken and of other facts within the specialized knowledge and experience of the Hearing Officer. Whenever official notice is requested or the Hearing Officer intends to take such notice on his own motion, prior notice shall be given to all parties with an opportunity to comment on the relevance or accuracy of the material of which official notice may be taken.

- 6) Copies of direct testimony of any witness shall be served upon the Hearing Officer at least 7 days in advance of the session of the hearing at which such testimony is offered.
 - 7) All motions and objections made during a public hearing shall be stated orally on the record, including the grounds of such objection.
 - 8) When objection is made to the admissibility of evidence, such evidence may be received subject to such other objection and later ruling.
 - 9) All motions other than those made during a hearing shall be in writing and shall state briefly the order or relief applied for and the grounds for such motion. Any such motion shall be filed with the Hearing Officer and a copy thereof shall be served at the same time on the parties. Answering statements, if any, shall be filed in writing with the Hearing Officer within 5 days after service of the motion upon the party filing the answering statement, and a copy thereof shall be served within the same period upon the other parties. The Hearing Officer may in his discretion, call for oral arguments on any such motion.
 - 10) Parties may agree by stipulation upon facts involved in the proceeding. Any stipulation reached before a final determination by the Director shall be submitted in writing to the Hearing Officer and shall become effective only if approved by the Hearing Officer.
 - 11) Statements from interested citizens may be presented if authorized by the Hearing Officer. These statements are subject to the same Rules and Regulations as herein set forth.
- b) Cross-Examination
- 1) Upon the hearing of any action any party thereto or any person for whose immediate benefit the action is prosecuted or defended, or the officers, directors or managing agents or any party to the action, may be called and examined as if under cross-examination at the instance of any party. The party calling for the examination is not precluded from rebutting the testimony thus given by countertestimony and may impeach the witness by proof of prior inconsistent statements.

- 2) If the Hearing Officer determines that a witness is hostile or unwilling, he may be examined by the party calling him as if under cross-examination.
 - 3) The scope of cross-examination shall be defined by those issues relevant to the Director's determination.
 - 4) Repetitious cross-examination may be limited by the Hearing Officer.
- c) Documentary Evidence
- 1) The Hearing Officer may receive material and relevant evidence which would be relied upon by reasonably prudent persons in the conduct of serious affairs which is reasonably necessary to resolution of the issue for which it is offered; provided that the rules relating to privileged topics shall be observed.
 - 2) the Hearing Officer shall exclude immaterial, irrelevant, and repetitious evidence.
 - 3) When the admissibility of disputed evidence depends upon an arguable interpretation of substantive law, the Hearing Officer shall admit such evidence.
 - 4) Upon stipulation of the parties, the Hearing Officer may order the record of any relevant prior proceeding before the Department incorporated into the record of the present proceeding. In such an event, the Hearing Officer shall incorporate the entire or appropriate portions of the record constituting such prior proceeding into the present proceeding.
 - 5) Relevant scientific or technical articles, treatises or materials may be introduced into evidence subject to qualification of the author and subject to refutation or disputation through any introduction of comparable documentary evidence or expert testimony.

- 6) When a party desires to offer in evidence any portion of the record in any other proceeding or previously filed applications, such portion or application shall be offered in the form of an exhibit unless objected to or otherwise stipulated by the parties. Upon objection such materials may be submitted for admission pursuant to sub-section c(9) of this section.
 - 7) When any material or relevant matter offered in evidence by any party is embraced in a book, paper or document containing other matter not material or relevant, the party offering the same shall plainly designate the matter so offered. If, in the judgment of the Hearing Officer, such immaterial or irrelevant matter would unnecessarily encumber the record, such book, paper or document will not be received in evidence as a whole, but the material or relevant portions thereof, if otherwise admissible, may be read into the record or a true copy thereof supplied in the form of an exhibit.
 - 8) When an exhibit of a documentary character is marked for identification and offered in evidence, four copies thereof shall be furnished to the Hearing Officer and one copy to each party who requests a copy unless the Hearing Officer rules otherwise. Copies will be retained by the Hearing Officer and the Department.
 - 9) When a party desires to offer in evidence any evidence heretofore considered in the issuance of a previous allocation order, such evidence shall be reintroduced by the proponent thereof provided said proponent has a witness or witnesses available who will state under oath that such evidence represents his testimony and is subject to cross-examination.
- d) Depositions. During the pendency of any proceeding, the Hearing Officer either upon his own motion or upon application in writing by any party may cause the deposition for use as evidence in the proceeding of any witness within or without the State to be taken in the manner provided by law for depositions in civil actions in the course of this State, and to that end may compel the attendance of witnesses and the production of books, papers, accounts and documents. Except under special circumstances and for good cause shown, no deposition may be taken except upon 10 days prior notice to all parties.

- e) Postponement or Continuance of Hearing.
 - 1) A hearing may be postponed or continued for due cause by the Hearing Officer upon his own motion or upon motion of a party to the Hearing.
 - 2) Notice of motion for postponement or continuance shall be given in writing, by the party requesting the motion, to all parties to the hearing within a reasonable time in advance of the previously scheduled hearing date.
- f) Default. Failure of a party to appear on the date set for hearing, or failure to proceed as ordered by the Hearing Officer shall constitute a default. Within 30 days after notice to the party of the default order and upon good cause being shown, the party may move to vacate the default and be allowed to proceed as if no default had been entered. Upon default the Director shall enter such order as is appropriate based upon the evidence introduced at the hearing.

Section 3730.212 Subpoenas

- a) Pursuant to Section 10 of the Act, upon verified application to the Hearing Officer by any party and upon a showing that such subpoena is reasonably required, or on motion of the Hearing Officer, the Hearing Officer shall issue a subpoena for attendance at a deposition or a hearing, which may include a command to produce books, papers, documents, or tangible things designated therein and reasonably necessary to resolution of the matter under consideration, subject to the limitations on discovery prescribed by these Rules.
- b) Every subpoena shall state the title of the action and shall command each person to whom it is directed to attend and give testimony at the time and place therein specified.
- c) The Hearing Officer, upon motion made promptly and in any event at or before the time specified in the subpoena for compliance therewith, may quash or modify the subpoena if it is unreasonable and oppressive.
- d) Any person served with a subpoena issued in accordance with these rules who shall refuse or neglect to appear or to testify, or to produce books, papers, accounts or documents as commanded in such subpoena shall be guilty of a Class B misdemeanor.

Section 3730.213 Official Record

- a) The Department shall provide a court reporter who shall record and transcribe a stenographic record of all hearings and will provide for such copies of the transcript as the Department may require for its own purposes. For hearings commencing after May 12 1980, the obligation to provide a record shall be the petitioner's.
- b) After the transcript is filed, the Hearing Officer shall entertain requests for corrections and enter corrections either on the record of a subsequent hearing or in an Order.
- c) The transcript of the hearing, all pleadings, all exhibits entered into evidence, and any documents officially noticed pursuant to Section 3730.211(a)(5) shall constitute the record.
- d) Transcripts of hearings conducted by the Department shall be kept in the custody of the Department and will be open for inspection during the regular office hours. Copies may be made at the expense of the interested party.

Section 3730.214 Order of Hearing Officer or Director

The Hearing Officer's findings and recommended order shall be presented to the Director for his approval. The Director may issue the recommended order as his own or he may modify the recommended order or reconsider the order or order a rehearing. Any party may petition the Director for reconsideration or for a rehearing within 30 days of the issuance of the Director's order. A copy of the order or decision of the Director shall be filed in the records of the Department and served on each party to the proceeding. Any order and decision of the Director shall be open for public inspection at his offices during regular office hours.

Section 3730.215 Hearing Officer's Proposed Order

Prior to, during or following the taking of testimony, the hearing of oral argument and the filing of briefs, if any, filed with him by the parties, the Hearing Officer may require filing of proposed orders including proposed findings of fact and conclusions of law.

SUBPART C: ALLOCATION RULES

Section 3730.301 Allocation Permits

- a) No regional organization, municipality, political subdivision, agency or instrumentality, or any other organization, association or individual desiring to use water from Lake Michigan which is subject to allocation under the Act shall divert or use any such water after July 1, 1977, unless it has previously obtained from the Department a valid allocation permit.
- b) The Department shall issue an allocation permit to any applicant which it determines to be entitled to an allocation of water from the Lake Michigan diversion according to the criteria set out in this Subpart. The permit shall state the allocation which the applicant is allowed, the starting date and duration of the permitted allocation, and such conditions as specified in Sections 3730.307 and 3730.309 as the Department may require the applicant to comply with in order to receive or to continue to receive its allocated share of the Lake Michigan diversion. Allocations for residential, industrial and commercial uses will be limited for each annual accounting period. Allocations for navigational makeup and discretionary dilution will be limited by a running average over five annual accounting periods. Allocations for lockage and leakage will be limited by a running average over 40 annual accounting periods.
- c) If, over a five-year running period, a permittee appropriates water in amounts which are greater than 105% of its allocation for that period or if it appropriates in excess of 115 percent of its allocation in any one annual accounting period, the Department shall issue a notice of violation of the allocation permit.
- d) If a permittee commits a permit violation under subsections (a), (b) or (c) or if it fails to observe the conditions attached to its allocation permit, the Department shall issue a notice of violation. Upon hearing and determination of said violation, the permittee shall be deemed to have failed to obey an order made by the Department and may be subject to a fine of not less than \$1,000 or not more than \$10,000 to be recovered in the name of the People of the State of Illinois in any court of competent jurisdiction. Each day in which the prohibited activity continues shall constitute a new and separate violation of a Department order.

- e) If over a five-year running period, a permittee appropriates water in amounts which are less than 90% of its allocation for the period, any entity or the Department on its own motion may initiate proceedings for a modification according to Sections 3730.204(c) and 3730.310. Any such modification shall be preceded by notice as provided in Section 3730.206 and a hearing held in conformance with Subpart B.
- f) If a permittee, because of physical limitations, cannot use an allocation, the Department may allocate this water after notice and a hearing to another use during an accounting period or hold it in reserve for future use without prejudice to any permittee's allocation in succeeding accounting periods.

(Source: Amended at 14 Ill. Reg. 1484, effective January 3, 1990)

Section 3730.302 Application

An application for an allocation permit shall contain the following information, to be filed on forms provided by the Department:

- a) The name and location of the applicant;
- b) A description of the geographic area which the applicant supplies or intends to supply with water, and the number of people residing within that area;
- c) An enumeration of the uses to which the allocation is intended to be put, including the proportion of the allocation which goes to each use;
- d) A description of all proposed and existing systems for the storage, treatment, transportation and distribution of water and the location of any discharge of wastewater effluent within the area which the applicant intends to supply with water from the allocation, including the location, dates of construction, and major improvements of wells;
- e) A description of all present sources of water supply, within the area described pursuant to Section 3730.302(b), including a breakdown stating the amounts and quality of water currently available and the quantity prospectively available from each source;

- f) A statement of anticipated future needs during the period for which application for a water allocation is being made, including projected land use changes and population changes and per capita use.
- g) Such other information relevant to the Lake Michigan allocation as the Department deems appropriate.

Section 3730.303 Classification of Water Users

- a) Applicants will be divided into broad categories determined by water use. The categories in order of descending priorities are: Categories IA and IB having the same priority, Categories IIA and IIB having the same priority, and Category III.
 - 1) Category IA - Applicants whose primary water needs are residential, commercial or industrial and whose future or continued use of Lake Michigan water is the most economical source of supply.
 - 2) Category IB - Applicants whose primary water demands are for the minimum flows necessary to meet navigation requirements and minimum discretionary dilution flows necessary to maintain the Sanitary and Ship Canal in a reasonably satisfactory sanitary condition.
 - 3) Category IIA - Applicants whose water demands are for the minimum discretionary dilution flows necessary to meet water quality standards in the Sanitary and Ship Canal.
 - 4) Category IIB - Applicants whose primary water demands are residential, commercial and industrial and whose use of Lake Michigan water would reduce regional use of the deep aquifer.
 - 5) Category III - Applicants whose water demands do not fall into Category IA, IB, IIA, or IIB.

- b) In determining priorities within Categories IA and IB, the Department will consider the following items:
- 1) Adequacy of supply from sources other than Lake Michigan.
 - 2) Economics of alternative supplies.
 - 3) A limitation of 320 cubic feet of water per second for discretionary dilution for water quality purposes in the Sanitary and Ship Canal.
 - 4) The need to maintain the Sanitary and Ship Canal in a reasonably satisfactory sanitary condition.
 - 5) For new users or applicants who have requested an increase over the allocation of Lake Michigan water which these applicants had on July 1, 1980, priority will be given to allocations for domestic purposes.
 - 6) The need to meet navigation requirements in the Sanitary and Ship Canal.
 - 7) The requirement that the Department shall not allocate less than 320 cubic feet per second for discretionary dilution for water quality purposes in the Sanitary and Ship Canal before October 1, 2000, unless a modification is ordered based on the criteria stated in Section 3730.310(b)(4).
- c) In determining priorities within Categories IIA and IIB, the Department will consider the following items:
- 1) A limitation of 320 cubic feet per second for discretionary dilution for water quality purposes in the Sanitary and Ship Canal.
 - 2) The requirement that the Department shall not allocate less than 320 cubic feet per second for discretionary dilution for water quality purposes in the Sanitary and Ship Canal before October 1, 2000, unless a modification is ordered based on the criteria stated in Section 3730.310(b)(4).
 - 3) The need to meet water quality standards in the Sanitary and Ship Canal.

- 4) For new users or applicants who have requested an increase over the allocation of Lake Michigan water these applicants had on July 1, 1980, allocations of Lake Michigan water will be made with the goal of reducing withdrawals from the Cambrian-Ordovician Aquifer.
- d) The Department will normally make allocations to meet the full water needs of any category as determined by the Department before any water is allocated to applicants in categories of the lower priority.
- e) In determining the amount of water available for allocations to Categories I, II, & III, the Department will consider the amount of water that must be reserved for storm water runoff, and a reserve for future increases in demands and storm water runoff.

Section 3730.304 Water Needs Criteria

The Department will determine anticipated water needs for each applicant. The Department will take into consideration in making such determination the population of the area to be served, projected population growth, current and projected per capita consumption within the area, the nature and extent of industrial uses (including a consideration of typical requirements for similar industries), municipal and hydrant uses (public facilities, park upkeep, fire protection), implementation of conservation practices, and the reduction of unaccounted-for flows as required by these rules.

- a) Conservation practices which will be considered with respect to applicants in Categories IA and IIB include the extent of metering, the provision of building codes for water efficient equipment, rate structures which encourage conservation, past record of enforcement of water saving ordinances, expenditures for maintenance and repair of water distribution systems, and implementation of specific ground water conservation levels of usage recommended by State or regional planning agencies. The Director may establish maximum reasonable per capita consumption rates for each user based upon either an evaluation of the relative proportion of industrial, commercial and residential users served by the permittee or the efficiency of the permittee's water distribution system, or both. Unaccounted-for flows for applicants in Categories IA and IIB shall not exceed 12% in 1981 decreasing to 8% in 1986 and for all years thereafter except as provided in Section 3730.307(b). The percentages stated in this Section shall be based on net annual pumpage.

- b) Conservation practices which will be considered with respect to applicants in Categories IB and IIA include improved and more accurate measurement and accounting procedures, improved treatment of all waste flows, elimination of untreated combined sewer bypass flows, reasonable use of instream aeration, impoundment or other methods to provide for the reuse of lockage water, regulation of lock usage, implementation of navigational and storm response operations and procedures to minimize Lake Michigan diversion and implementation of effective programs of leak prevention, detection and correction.

Section 3730.305 Emergencies

- a) Upon the occurrence of an unforeseen event and where necessary to safeguard the health, safety, or welfare of the people of the State of Illinois, the Director shall make an emergency allocation of water upon a showing by any user or applicant that:
 - 1) *A water shortage emergency exists, threatening the public health, safety, or welfare of people whom the user or applicant intends to supply with water; and*
 - 2) the user or applicant is making provisions to prevent the continuation or recurrence of such emergency allocations by developing alternative sources of water supply.
- b) The effectiveness of an emergency allocation order shall last until the Department has issued and entered an order after a hearing regarding the emergency allocation is held in accordance with Section 3730.202(d).
- c) All hearings on emergency allocations will be held after notice has been given pursuant to Section 3730.206(a).

(Source: Amended at 9 Ill. Reg. 386, effective January 1, 1985)

Section 3730.306 Transfer of Water Use Rights

- a) A user may not transfer any portion of its allocation of Lake Michigan water to another user unless the transferor has satisfied all of the conditions precedent attached to its water allocation permit and the Department has approved the transfer according to the procedures in subparagraph (b) or (c) of this Section.

- b) All requests for transfers, except those described in subparagraph (c) of this Section, shall be processed as petitions for modification of the allocation permits of the transferor and the transferee according to Sections 3730.204(c) and 3730.310. These requests shall not be approved or disapproved unless notice has been given as provided in Section 3730.206 and a hearing has been held in conformance with Subpart B of this Part.
- c) Any request for a transfer which includes the following statements may be approved by the Department after 30 days notice to all permittees and an opportunity for hearing has been provided:
 - 1) The transferor must have satisfied all of the conditions precedent attached to its water allocation permit.
 - 2) The transferee must be a duly constituted regional water supply organization.
 - 3) the transferor and transferee must clearly indicate that the transferee assumes responsibility for compliance by the transferor with the requirements of Sections 3730.307 and 3730.309.
 - 4) The requested transfer must comprise 100% of the transferor's allocation.
 - 5) The transferred allocation must be used solely by the transferor.
- d) Transfers to another user of any part of an allocation, except those transfers described in subparagraph (c) of this Section, will be considered prima evidence of a reduction in the transferor's water use needs equivalent in size to the transferred allocation when the transferor applies for a renewal permit. However, evidence that an applicant has obtained additional Lake Michigan water from other users beyond that amount originally allocated to the transferee will not be sufficient to establish a prima facie case that the transferee-applicant's original allocation should be increased by a corresponding amount.
- e) All transfers terminate upon the expiration of the transferor's allocation permit.

Section 3730.307 Conservation Practices and Other Permit Conditions

- a) The Department shall condition allocations within a user category upon required conservation practices for each user category as specified in subsections (b) and (c). Failure by any permittee to meet the conservation requirements applicable to it within a reasonable period of time will, upon notice, hearing and determination of such failure, constitutes a violation of a Department order.
- b) As a condition of receiving an allocation of Lake Michigan water, all permittees will agree to submit to the Department proposals designed to reduce or eliminate wasteful water use and to reduce unaccounted-for flows to 8% or less, based on net annual pumpage, and procedures used to determine efficiency of water metering or accounting in permittee's system.
- c) The Department shall require evidence of adoptions by the permittee of the following conservation practices as applicable to the particular user:
 - 1) Leakage monitoring and correction for storage, transmission and distribution systems.
 - 2) Metering of all new construction.
 - 3) Metering of existing nonmetered services as part of any major remodeling.
 - 4) The adoption of ordinances which require installation of the following water efficient plumbing fixtures based on a pressure at the fixture of 40 to 50 psi in all new construction and in all repair or replacement of fixtures or trim:

Fixtures	Maximum Flow
Water Closets, tank type	3.5 gal per flush
Water Closets, flushometer type	3.0 gal per flush
Urinals, tank type	3.0 gal per flush
Urinals, flushometer type	3.0 gal per flush
Shower Heads	3.0 GPM
Lavatory, sink faucets	3.0 GPM
 - 5) The adoption of ordinances which require the installation of closed system air conditioning in all new construction and in all remodeling.

- 6) The adoption of ordinances which require that all lavatories for public use in new construction or remodeling be equipped with metering or self closing faucets.
 - 7) The adoption of ordinances which require that all newly constructed or remodeled car wash installations be equipped with a water recycling system.
 - 8) The adoption of ordinances which restrict non-essential outside water uses to prevent excessive, wasteful use. As a minimum, these restrictions shall provide that unrestricted lawn sprinkling will not be allowed from May 15 - September 15 of each year.
 - 9) Development and implementation of public programs to encourage reduced water use.
 - 10) Installation of facilities and implementation of programs to reduce to a reasonable minimum, and to accurately account for, water used for navigational, lockage, and leakage purposes; and pollution treatment, control or abatement purposes.
- d) Within 90 days of receipt of an allocation permit, each permittee which uses any water from deep aquifer pumpage shall submit a phased program designed to end this practice, other than for emergency or standby use, within five years of the receipt of Lake Michigan water.
 - e) As a condition of receiving an allocation of Lake Michigan water, all permittees will limit hydrant uses to 1% or less of net annual pumpage in each annual accounting period. The Department may grant an exception to this requirement if it can be shown by the user that this requirement can't be met. In determining the merits of a request for an exception, the Department considers such factors as engineering studies of hydrant uses and unusual circumstances during an annual accounting period.
 - f) The Department recommends that all permittees adopt water rate structures based on metered water use and that water rate structures be developed which will discourage excessive water use.

(Source: Amended at 14 Ill. Reg. 1484, effective January 3, 1990)

Section 3730.308 Duration of Permit and Renewals

- a) The Department shall determine the duration of each allocation permit, which shall be stated upon the face of the permit.
- b) At the expiration of each allocation permit, the permit shall be renewed year by year in the same amount and on the same conditions as were in force upon expiration of the permit, unless any entity, or the Department on its own motion, files a petition for modification in compliance with Section 3730.204 (c) and 3730.310 and the Department determines that the petition is not frivolous. A permit shall remain in force and effect pending a determination by the Department of the issues raised in the modification proceedings.

Section 3730.309 Reporting Requirements

- a) Within 60 days of the end of each accounting period, all permittees shall furnish the following information and such other information relevant to the Lake Michigan allocation as the Department may require on forms provided by the Department:

 - d) The Department may, in its discretion, schedule a hearing upon any petition without regard to the existence of the factors listed in subparagraph (b) of this Section if it deems holding such hearing to be in the public interest.

SUBPART D: ADMINISTRATIVE REVIEW

Section 3730.401 Administrative Review

All final administrative orders of the Director except those orders which deal with rulemaking shall be subject to judicial review pursuant to the Administrative Review Law [735 ILCS 5/Art. III] by filing a complaint and causing the issuance of summons on the Director and on each of the other defendants within 35 days from the date that a copy of such order sought to be reviewed was served.

Section 3730.402 Modification of Order and Decision of Department

The Director at any time prior to the date on which he is required to file his answer in a judicial review proceeding may upon reasonable advance notice given to all parties by registered or certified mail, which notice shall not be less than ten days in advance of such date, modify or set aside in whole or in part the Order and Decision appealed from.
