PUBLIC NOTICE

Proposed 3rd Street Crossing of Hennepin Canal in Henry County

Notice is hereby given all interested parties that an application has been received from the Village of Colona, 100 E. 9th Avenue, Colona, Illinois 61241 for a permit authorizing embankment, culvert and utility work across Hennepin Canal. A location map is provided on the reverse side of this notice.

The plans show that the proposed work consists of constructing an embankment across the Hennepin Canal to connect Greenway Avenue on the southern side of the canal with South 3rd Street on the northern side. A 10-foot wide by 7-foot high box culvert is to be constructed through the embankment to maintain the canal's continuity. A 30-inch sanitary sewer and an 8-inch water main are to be constructed across the canal through the embankment. The existing embankment that crosses the canal just east of the new embankment is to be removed. The work is to be located in the Northwest ¼ of Section 11, Township 17 North, Range 1 East of the 4th Principal Meridian in Henry County.

No work is to be commenced or completed on this project unless and until the permit is issued. Local authorization may also be required for this project.

Inquiries may be directed to Grace Nelson at 217/782-4545. All interested parties are invited to submit written statements regarding the proposed work to the Illinois Department of Natural Resources, Office of Water Resources, One Natural Resources Way, Springfield, Illinois 62702 by June 6, 2014.
