

Wildland Firefighter Training ICS 100, L180, S130 (Firefighter Training) & S190 (Introduction to Wildland Behavior)

These are the basic classes required for IDNR staff and volunteers to participate in IDNR prescribed burns and/or wildland fire suppression.

Approximately 80% of the training is self-paced online. An additional one day field event is the final portion of the training. The online training is required prior to the field day.

Basics

- The online training materials need to be downloaded to your personal computer (see how below).
- The downloaded files must be completed for each person taking the classes.
- When taking the online training you need to print the completed unit training certificates and present them at the field day.

To Access the Training

- Download the 2 files onto your computer
- To download the 2 files, simply click these links

<http://multimedia.illinois.gov/dnr/FireFighterTraining.zip>

<http://multimedia.illinois.gov/dnr/IntroWildlandFireBehavior.zip>

- Log in with your name.
- Save the files (Select Save or Save-as)
- Unzip/extract to a location of your choosing
- Run the file Player.exe

Should you have any questions, issues or need the field day contact Tom Wilson with the

Division of Forestry-DNR
