

2018 FIREARM/MUZZLELOADER DEER HARVEST REPORTING & HUNTING REGULATIONS INFORMATION SHEET

Your deer permit entitles you to participate in the privilege of deer hunting. Please review this information to ensure that you comply with all of the deer hunting regulations. While hunting, please respect the rules of good sportsmanship and the property of others. Have a safe and successful deer hunt.

MANDATORY DEER HARVEST REPORTING

Successful deer hunters must report their harvest by 10 p.m. on the day of harvest using our automated check-in system as below:

BY TELEPHONE (toll-free): 1-866-452-4325 (1-866-IL-CHECK)

ONLINE: www.dnr.illinois.gov/Hunting/Pages/HarvestReporting.aspx OR

www.il.wildlifelicenses.com/harvestReport/harvestReport.php

(For your convenience, this information is also printed on the front of your deer permit.)

Note to cell phone users: The most common reason hunters are unable to complete their harvest report is because of a poor cell phone connection. Once you have properly tagged your deer, wait until you are out of the woods and receive a clear, strong cell phone connection before placing your call.

TAGGING: Immediately upon kill and before the deer is moved, transported or field dressed, the hunter must cut out the designated notch on the leg tag to invalidate it, and the tag must be attached and properly sealed. The deer must remain whole (or field dressed) until it has been checked in.

HARVEST REPORTING: Hunters must register (report) their harvest by 10 p.m. on the day of harvest. When reporting, hunters will be asked a series of questions to help biologists manage Illinois' deer population (additional information below). **Before checking in your deer, please look over the questions listed on the back of your permit and be prepared to answer them.** Please have a pen or pencil on hand when making the call (an extra-fine-tipped permanent marker works best). Upon completion, hunters will be given a 10-character confirmation number to verify that they checked in their harvest. The confirmation number must be written onto the leg tag in the appropriate space. If the condition of the tag precludes writing on the tag in the appropriate space (i.e., bloody, etc.), the confirmation number must be written elsewhere on the tag, or onto a piece of paper and attached to the deer along with the leg tag. The leg tag and confirmation number must remain attached to the deer until it is at the legal residence of the person who legally took or possessed the deer, the deer has been checked in, and final processing is completed.

In instances where deer are checked in while the hunter is still afield, the deer may not be dismembered while afield beyond quartering the animal. If quartered, all parts of the carcass (except the entrails removed during field dressing) must be transported together and evidence of sex must remain naturally attached to the carcass. Evidence of sex is:

A) For a buck: head with antlers attached to carcass, or attached testicle, scrotum, or penis

B) For a doe: head attached to carcass, or attached udder (mammary) or vulva.

If the head/antlers are left with a taxidermist, the confirmation number must be recorded on the "head tag" portion of the permit, and both must remain with the deer. If the carcass is taken to a meat processor, the temporary harvest tag (leg tag) with confirmation number must remain with the deer while it is processed, and until it is at the legal residence of the person who legally took or possessed the deer. Persons delivering deer/parts of deer to a tanner must supply the tanner with either their deer permit number, their confirmation number, or written certification by the person from whom the deer was received that the specimen was legally taken or obtained.

ANTLERED DEER - A deer having at least one antler of a length of 3 or more inches

ANTLERLESS DEER - A deer without antlers or a deer having antlers less than 3 inches long.

- Permits will not be reissued in circumstances involving deer that are found to be diseased or infected from old injuries to the point that the meat is inedible. Legal disposal of unfit deer taken shall be the responsibility of the hunter.

- On private land only, archery equipment may be used with a FIREARM permit **ONLY during the Firearm Seasons Nov. 16-18 & Nov. 29 - Dec.2.**

*** Additional Muzzleloading Regulations***

- A muzzleloading firearm is defined as a firearm that is incapable of being loaded from the breech end.
- Only black powder or a "black powder substitute" such as Pyrodex may be used. Modern smokeless powders (nitrocellulose-based) are an approved black powder substitute only in muzzleloading firearms specifically designed for their use.
- Only percussion (cap or primer), wheellock, matchlock, flintlock or electronic ignition may be used.

LEGAL AMMUNITION

- For shotguns and muzzleloading firearms, the minimum size of the projectile shall be .44 caliber. A wad or sleeve is not considered a projectile or a part of the projectile.

HUNTING AREA

The specific county or hunt area for which the permit is issued. Permission to hunt on private property must be obtained from the property owner or tenant. For Property-Only Hunting (landowner) permit holders, the hunting area is all of the land owned, leased or rented in the counties open for deer hunting. A hunting rights lease, or other non-agricultural lease, is not valid as a basis for obtaining a Property-Only Hunting permit.

BAG LIMIT: One deer per legally authorized permit. No hunter, regardless of the quantity or type of permits in his/her possession, may harvest more than 2 antlered deer during a year, including the Youth, Archery, Muzzleloader and Firearm Seasons. For purposes of this bag limit, deer seasons are considered to be in the same year if their opening dates fall within the same 12-month period that begins July 1. A hunter in possession of an either-sex permit after having harvested 2 antlered deer during a year may only use the permit to harvest an antlerless deer. Subject to this restriction, an either-sex permit holder is allowed to take a deer with or without antlers during the legal season. An antlerless-only permit holder is allowed to take only a deer without antlers or a deer having antlers less than 3 inches long during the legal season.
