LAND RECLAMATION DIVISION MEMORANDUM NO. 89-1

TO: All Underground Coal Mine Operators

FROM: Douglas Downing, Supervisor
Land Reclamation Division *Douglas Downing*

DATE: January 26, 1989

RE: Yearly Map of Underground Workings
Required by 62 Ill. Adm. Code 1817.121(g)

The Department wishes to notify all coal operators of the above mentioned requirement for maps of underground workings to be submitted on or before April 1 of each year. The first map will be submitted on or before April 1, 1989. The map should clearly detail the mine workings developed for the calendar year of 1988, and a projection of the anticipated extent of mining for the calendar year of 1989 as required under 62 Ill. Adm. Code 1817.121(g). The Department wishes to clarify several points to aid you in preparing this map. Please be advised all parts of 62 Ill. Adm. Code 1817.121(g) must be addressed in addition to the following points:

1. The Department prefers the scale of this map to be at 1 inch equals 1,000 feet (1 to 1,000). Please contact Mr. Dan Barkley at our Springfield Office if you are proposing any other scale.
2. The Department requires all shadow area additions and incidental boundary revisions approved prior to, and within that calendar year be incorporated. It should indicate the boundary of the revision and the date of approval.
3. We prefer requests for incidental boundary revisions (IBR), insignificant permit revisions (IPR), or significant revisions not be incorporated as part of this map submittal requirement.
