**RE: TWOR 404 Depth of Cover Project**  
**Project Number(s): 1507599**  
**County: Clay**

Dear Applicant:

The Illinois Department of Natural Resources has reviewed the above-mentioned project involving placement of Submar revetment mats over a pipeline segment with insufficient cover. The Department has determined that impacts to protected resources are unlikely and has no objections to the issuance of a U.S. Army Corps of Engineers permit.

Please note that this review does not preclude permit decisions made by the IDNR Office of Water Resources under the Illinois Rivers, Lakes, and Streams Act.

Please contact me if you have any questions regarding this review.
