Project Description:

Crawford Count SFWA is located one mile south of Hutsonville, Illinois. This project will replace an existing 24" dia. pipe culvert located on the horse trail with a precast concrete box culvert. The new culvert will be approximately 3' x 6' and have an 8' top width. There will be some riprap aggregate placed at the corners of the culvert as a transition to the existing grades and to protect the culvert from erosion. No tree removal is expected to be needed to allow for the construction.

Is work area in a Federal Aid Project boundary? No Federal Aid type:
